

Water Purifier- Under Cabinet #UC 1000

- 4-Stage under sink water filtration system
- Modern tap faucet design
- Concealed under sink filter installation
- Simple filter exchange with easy handling
- No power connection required
- Optional Pi Mineralizer

Water Purifier- Under Cabinet

Customizable filtration solution –Includes Konia’s 4 stage water filter set including Sediment, Pre-Carbon, Ultra and Post-Carbon filters. You also have the option to customize your water filtration solution to include the Pi mineral water filter for added health benefits.

Water whenever you want it – delivers an unlimited supply of quality drinking water, so you’ll always have water ready when you want it.

Pure convenience – saves you the hassle and time of buying bottled water and frees up valuable refrigerator space.

Saves you money – Konia’s filtered water costs substantially less when compared to the price of bottled water from the supermarket.

Healthy choice – Konia’s filtered water provides your family with a healthier choice than sodas and sugary drinks. The Konia filters will filter your water down to 0.01 microns removing bacteria, contaminants, metals and chemicals.

Environmentally-friendly – by drinking more Konia water and less bottled water, you’ll save thousands of single-serve bottles from ending up in landfills.

Konia expertise – You can rely on the wealth of knowledge and service of the Konia team.
